SUMMARY

Dynamic web developer with a track record of completing 5+ projects utilizing JavaScript, TypeScript, HTML5, React.js and Next.js. Committed to developing scalable and user-centric web applications, driven by a passion for technology and continuous learning.

SKILLS

FRONT END DEVELOPMENT │ React.js • Next.js • Javascript • Typescript • React Query • Redux • Recoil • Tailwind CSS • Bootstrap • MUI • HTML • CSS

BACK END DEVELOPMENT │ Nodejs • Express • JWT • MongoDB • MYSQL

MISCELLANEOUS │ Deployment • RESTful Api • GitHub • Data Fetching • Agile Development • AWS • Docker • Figma

SOFT SKILLS │ Adaptability • Team work • Debugging

WORK EXPERIENCE

MERN STACK WEB-DEVELOPMENT INTERNSHIP
ILLINOIS TECH AND ENRTY ELEVATE

Dec 2023 - Aug 2024

- Completed a Full-Stack Web Development Bootcamp with hands-on experience in the MERN stack.
- Developed and deployed applications on AWS to ensure scalability, reliability, and efficient file storage.
- Deployed applications on Vercel and Render for quick and efficient hosting.
- Set up Role-Based Access Control (RBAC) to manage different user permissions.
- Used Material-UI (MUI),Bootstrap,Tailwind-CSS to design creative and responsive user interfaces.
- Created RESTful APIs with Express.js and Node.js to connect the frontend and backend.
- Used Docker containers to manage and deploy applications in a consistent environment.

JR. FRONTEND DEVELOPER
WILLWARE TECHNOLOGIES,BANGALORE

Feb 2023- Oct 2023

- Developed new features and enhancements for the application using ReactJS and TypeScript.
- Built reusable components.
- Collaborated with cross-functional teams to ensure timely delivery of project milestones.
- Debugged and resolved application issues to improve user-experience.
- Collaborated with QA teams to identify and address bugs, resulting in a 25% decrease in post-release issues.
- Participated in code reviews to learn and improve coding skills.

PROJECTS

E-COMMERCE WEB-APPLICATION

- Developed new features and enhancements for the application using ReactJS.
- Built reusable components that improved the code efficiency.
- Integrated payment gateway using Razorpay Api for secure transactions and implemented role-based access for customers and administrators.
- Adjusted database schemas according to the application changes and assessed project requirements using Agile principles.
- Developed RESTful APIs for product CRUD operations, user authentication, and cart management.

HOTEL BOOKING WEB-APPLICATION

- Developed a hotel booking application using the MERN stack (MongoDB,Express,React,Nodejs) with features for user-authentication and role-based access control using JWT.
- Optimized API endpoints for efficient data retrieval and updates, ensuring a seamless user experience.
- Ensured code reusability and clean structure by separating concerns between controllers, routes, and middleware, improving maintainability and scalability.

EDUCATION AND CERTIFICATION

FULL STACK WEB DEVELOPMENT
ENTRI ELEVATE AND ILLINOIS TECH

Dec 2023 - July 2024

BACHELOR OF COMPUTER APPLICATIONS
P.A First Grade College,Mangalore

Jun 2019 - Mar 2022
